## DETAILED ACTION

### *Allowable Subject Matter*

Claims 1-7, 12, 19, 22-24, and 26-28 are allowed.

The following is an examiner's statement of reasons for allowance: The present invention is directed to a method and system for controlling data communications between a mobile terminal and a network. Independent claims 1 and 12 each recite the uniquely distinct features of "for every network service access point identifier (NSAPI) using unacknowledged peer-to-peer LLC operation, setting a sequence number of the next network packet data unit (N-PDU) to be sent by the SNDP to zero; if the NSAPI is using unacknowledged peer-to-peer LLC operation, then: transmitting outstanding SNDP-to-LLC requests to the LLC". Independent claim 19 recites the uniquely distinct features of "after identifying the layer-2 reset condition, identifying outstanding layer-3 to layer-2 requests for unacknowledged layer-2 communication; and resending outstanding layer-3 to layer-2 requests from layer-3 to layer-2; upon identifying the reset condition in layer-3: setting unacknowledged layer-2 communication sequence numbers to zero in layer-3; and entering a recovery state in layer-3 for acknowledged layer-2 communications". Independent claims 22 and 26 each recite the uniquely distinct features of "facilitating data communication by sending a plurality of requests from a layer-3 module to a queue of a layer-2 module, each request being a type that is acknowledged by the layer-2 module but unacknowledged by a destination node; and in response to a reset indication, resending one or more requests that are

unacknowledged by the layer-2 module; in response to the reset indication at the layer-3 module, setting a packet data unit (PDU) number to zero for use in resending the one or more requests". The closest prior arts, Hoff et al (US20040053623); Qvigstad et al (US 20040210559) and Kalliokulju et al (US 6,385,451), each fail to anticipate or render the above underlined limitations obvious. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
